Audcomp Backup Services

Can your business critical data withstand a Hardware Failure?

Your organization should have a backup and disaster recovery strategy in place; and Audcomp Backup Services is here to help. Whether you are managing a small office or large organization, Audcomp can provide an efficient and easy-to-use backup solution. Your data stays local; at no point will your data leave Canadian borders and cross into any other country.

Peace of Mind at Low Cost

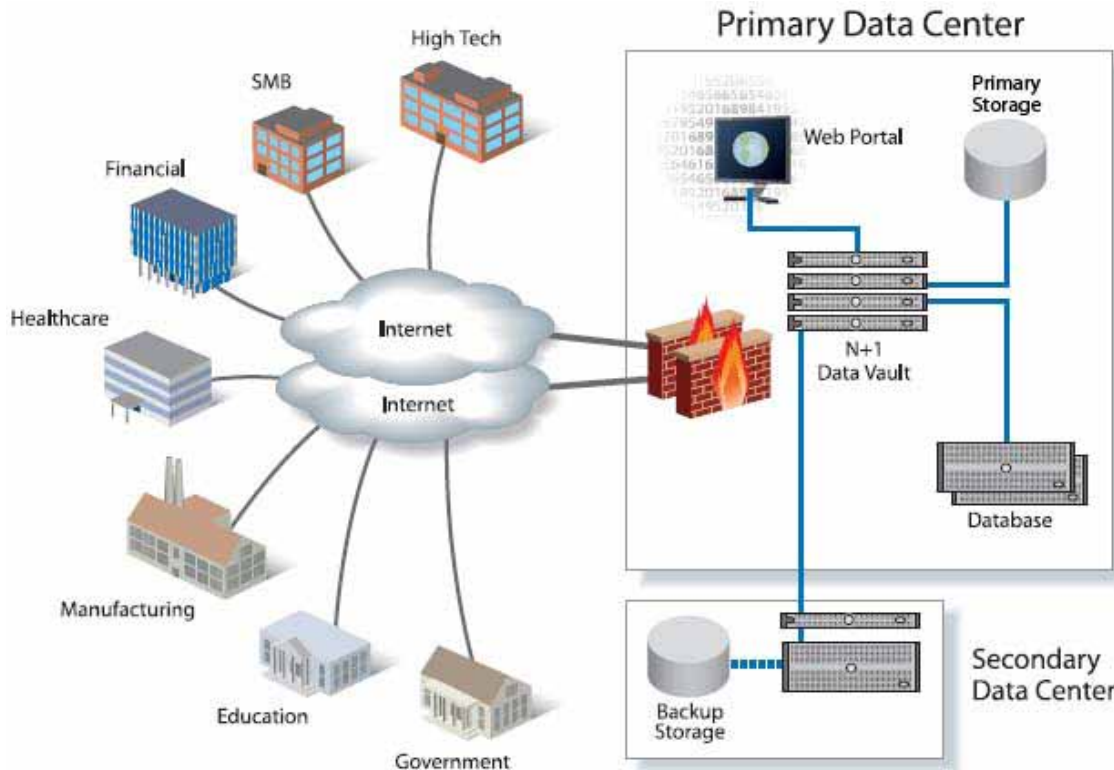

Audcomp Backup Services protects your critical business data automatically in our secure data center. Audcomp Backup Services eliminates the need for any equipment purchases or license fees. You simply pay for the space used to store your data.

Trustworthy Protection

Audcomp Backup Services has proven to be the most reliable and simple way to protect your data. You determine the schedule and your backup will automatically take place. Your organization's critical data is stored safely offsite and is easily retrievable in the event of a loss or total disaster.

Reliability With Out Question

- Backup power provided by four 1,000 kW diesel generators with 48-hour fuel supply
- Facility is equipped with a dry pipe fire suppression system, and climate controlled
- Our facility is secure and monitored 24/7
- Bandwidth: 2,000+ Mbps capacity
- Data is stored 'hot' online at all times on redundant RAID arrays.

Starting at \$48.99/month*

*Starting price based on 25 GB *One time set-up fee of \$150.00

Does your IT Security have More Bark Than Bite?
