

# Where is your IT Heading?

## Technical Assessment and IT Consulting

Assessing your IT environment is crucial in determining where your IT is heading. Our technical assessment and consultation services can help you invest more wisely by identifying and resolving potential risks before they even occur.

**AUDCOMP**  
Information Technology Solutions

### How healthy is your IT?

Developing a risk-free IT environment is not a one-time task. Examining the health of your IT regularly is important, not only to reduce performance gaps and downtimes, but also to prevent greater risks that might affect your IT infrastructure. Audcomp Professional Services can undertake thorough technical assessments on your existing IT environment to identify and resolve potential issues before they become problems.

#### IT Assessment

##### Tackle IT risks before they occur

Our IT Assessment focuses on identifying potential issues that may be causing your infrastructure not to work properly. We provide technical assessment services on:

- Wired and wireless network performance
- Virtualization assessment
- Network security assessment
- Surveillance and environmental assessment
- Storage performance
- Power outage process control
- Disaster recovery protocol
- Overall infrastructure review

#### IT Consulting

##### Quality and unbiased Consultation

Audcomp is committed to providing you with top-notch consulting services and solutions to meet your business needs. Our technology consultants are trained and accredited to give you high-quality and unbiased consultation on your IT needs.

#### IT Training

##### Specialized Training for your Staff

Audcomp provides IT and other specialized application training. Let us know your training needs and our experienced and knowledgeable professionals will create customized training to fit your need. Some of our training programs are:

- Blade Servers
- EVA Storage
- Interactive Whiteboard
- Microsoft Office
- Microsoft Windows
